Bacterial Pneumonia	.003806	.003316	.003733	.003025
Urinary Infection	.002760	.003010	.003077	.002190

MORBIDITY⁹

	2007	2008	2009	Florida
Alcohol Related Motor Vehicle Crashes (rate per 100,000)	99.9	95.5	80.1	75.1
Vaccine Preventable Diseases (rate per 100,000)	5.0	4.2	3.6	4.5
TB Cases (rate per 100,000)	4.1	3.2	1.9	4.4
Gonorrhea Cases (rate per 100,000)	160.8	159.3	161.8	111.0
Chlamydia Cases (rate per 100,000)	366.3	417.7	42.0	387.5
Infectious Syphilis Cases (rate per 100,000)	7.6	7.0	7.3	5.5
HIV Cases (rate per 100,000)	27.7	34.7	22.0	29.8
AIDS Cases (rate per 100,000)	18.7	22.0	18.0	23.5

HIV/AIDS MORBIDITY⁷

NOTES Socioeconomics: FPL: Federal Poverty Level. Maternal and Infant Health: Total Infant Mortality rate is 0-364 days from birth. Leading Causes of Death: CLRD: Chronic Lower Respiratory Disease. CLRD includes Chronic Obstructive Pulmonary Disease (COPD) and other diseases of the lungs and airway. Rates are per 100,000 population. Avoidable Hospitalizations: Based on Prevention Quality Indicators which are a set of measures that can be used with hospital inpatient discharge data to identify quality of care for ambulatory care-sensitive conditions. These are conditions for which good outpatient care can potentially prevent the need for hospitalization or for which early intervention can prevent complications or more severe disease.

The Health Councils define and resolve health care issues through community partnerships.

Suncoast Health Council Service Area

The Health Councils (THC) exists as an impartial focal point for the study of health and human service issues at the local level. The agency facilitates the open and objective discussion of community issues and brings a big picture perspective to the process. The Council works collaboratively with other community organizations and government agencies to improve the service delivery system and create innovative programs.

We partner with and provide services to government agencies, community based organizations, healthcare facilities, healthcare consumers and health advocacy groups through contracts and grants. Services provided by THC staff include:

- Survey Design and Implementation
- Needs Assessment, including Gap Analysis
- Data Collection and Analysis
- Strategic Planning - Mission, Vision and SWOT Analysis
- Program Design, Implementation and/or Evaluation
- Health Policy Analysis
- Best Practice Development
- Community Education
- Professional Training
- Grant Writing
- Facilitative Leadership for Community Groups

Our staff has advanced degrees and extensive experience in public health, education, community planning, research techniques and survey design, database design, health education, collaborative techniques, grants management, policy analysis and volunteer recruitment and retention.

The Health Council helps to secure millions of dollars in health care resources for local residents. Our programs serve thousands of people through planning, education and service delivery. Partner with the Health Council and together, we can make health care better in our community. Find out more about The Health Council by visiting www.healthcouncils.org.
